Obstacles

- technical and design

- legal, regulatory, and reputational

- strategic and economic

Obstacles

- **technical and design**   what's possible

- **legal, regulatory, and reputational**   what's permissible

- **strategic and economic**   what's profitable
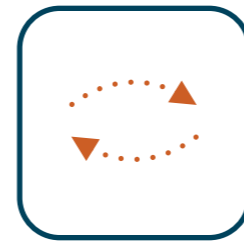

Types of Transparency

- under-the-hood

- user facility

Types of Transparency

- **under-the-hood**   what's going on inside the box

- **user facility**   what outputs to expect from the box

Types of Transparency

- **under-the-hood**

- **user facility**

Putting it all together

- understanding of obstacles can guide practice

- user facility can circumvent obstacles

- "black boxes" v. "untraceable boxes"

The End

- thanks!

- we look forward to your questions
